EDUCATION

B.Sc. Computer Science

Faculty of Computers & Information,
Luxor University

Computer Science Department

2023 – 2027 (4th Year)

GPA: 3.5

Relevant Coursework: Software
Development, OOP, Data Structures &
Algorithms, Database Systems,
Operating Systems, Visual
Programming.

CERTIFICATIONS

- Cross-Platform Mobile App Development — Route Academy, 2025
- UI/UX Design — National Telecommunication Institute (NTI), 2025

PROFESSIONAL SUMMARY

Motivated fourth-year Computer Science student specializing in Flutter development with a solid foundation in UI/UX design. Skilled in building responsive, production-quality mobile applications using Flutter, Firebase, and Clean Architecture, and in applying UI/UX principles — from user research to prototyping — to design clear, user-friendly interfaces. Hands-on experience across four internships and multiple end-to-end personal projects, including an app published on Google Play.

WORK EXPERIENCE

Flutter Development Intern — Route AcademyJul 2025 – Jan 2026Remote, Cairo, Egypt

- Developed 5+ cross-platform mobile app components using Flutter & Dart.
- Built responsive UI/UX screens, improving usability consistency by 30% across test devices.
- Learned the full product design workflow: user research, wireframing, prototyping, and usability testing; designed 10+ user-centered interfaces and completed a full UI/UX project from research to final prototype in 4 weeks.
- Wrote clean, structured code and fixed 15+ bugs across program projects.
- Collaborated in an Agile environment: weekly sprints and 6+ team code reviews.

Flutter Development Intern — Space TechJul 2026 – Oct 2026On-site, Alexandria, Egypt

- Contributed to Flutter feature development within a team setting, applying Dart best practices and version control workflows.

Flutter Development Intern — I-FikraJul 2026 – Oct 2026On-site, Alexandria, Egypt

- Built and maintained Flutter app features, translating UI/UX designs into functional, responsive screens.

UI/UX Design Training Program — National Telecommunication Institute (NTI)Aug 2025 – Sep 2025On-site, Alexandria, Egypt

FEATURED PROJECTS

PLUS 90 — Location-Based Deals MarketplaceTEAM PROJECT

- A Flutter & Firebase marketplace connecting users and companies to sell or discover near-expiry products and time-limited deals nearby, reducing waste and helping users save money.
- Built core features: location-based deal discovery, real-time notifications, multi-role authentication, deal creation & management, and smart deal browsing/search.

Tools: Flutter, Dart, Firebase (Auth, Firestore), Geolocation | github.com/abdelrhamanadel4-Flutter/plus90_application

Salla7ly — Home Maintenance Marketplace

- Flutter marketplace connecting customers with technicians, featuring an AI-assisted flow to detect issue type from the problem description, offers, and reviews.
- Built with Clean Architecture (feature-first/modular), Bloc/Cubit state management, Freezed, Dio + Retrofit networking, Socket.IO for real-time updates, and get_it/injectable for dependency injection.
- Fully localized Arabic UI with right-to-left (RTL) layout.

Tools: Flutter, Dart, Bloc/Cubit, Dio, Retrofit, Socket.IO, get_it, Google Maps | github.com/abdelrhamanadel4-Flutter/salla7ly_01

LEADY DRIVERLIVE ON GOOGLE PLAY

- A women-only ride-hailing app connecting female drivers and passengers, published and live on the Google Play Store.
- Contributed to the companion passenger-side app alongside the team.

Tools: Flutter, Dart, Firebase | play.google.com/store/apps/details?id=com.ladydriver.eg | github.com/KerollosMoheb/App_LadyPassenger_V2

PI Domino — Multiplayer Domino Game

- Multiplayer domino game built with Flutter, integrated with the Pi Network cryptocurrency wallet for in-app rewards and transactions.

Tools: Flutter, Dart, Pi Network SDK

ADDITIONAL PROJECTS

Islami AppE-Commerce App

Prayer times, Quran reading, Hadith & Azkar with bookmarking. Flutter, Dart, API Integration. Product listing, cart, order management & simulated payment flow. Flutter, Firebase/REST.

github.com/abdelrhamanadel4-Flutter/islamiProject

News AppEvently

Real-time articles via external APIs with category-based browsing. Flutter, REST APIs. Event management app with real-time event creation, joining & cloud-synced updates. Flutter, Firebase (Auth, Firestore).

github.com/abdelrhamanadel4-Flutter/NewsAppgithub.com/abdelrhamanadel4-Flutter/EventlyApp

Movies App

Team project for browsing & discovering movies, with a Firebase backend. Flutter, Dart, Firebase.
